Black farmers in the US's South— faced with continued failure their efforts to run successful farms their launched a lawsuit claiming that “white racism” is to blame for their inability to the produce crop yields and on equivalent to that switched seeds.

For the first time the Swiss State Secretart for Economic Affair (SECO) has indicated that Uber taxi drivers should be classed as employees

Black farmers in the US's South—faced with continued failure in their efforts to run successful farms their launched a lawsuit claiming that “white racism” is to blame for their inability to produce crop yields and on equivalent to that switched seeds in order to sell black farmers a subpar product at the Mid-South Farm & Gin Show in March 2017. Despite above average rainfall, the black farmers saw limited soybean yield from the Stine seeds during the 2017 harvest.
